PREMIUM GOATSKIN LEATHER WORK GLOVES WITH KEVLAR® CUT & HEAT-RESISTANT LINING

DESCRIPTION:

Built for enhanced hand protection in demanding work environments, these utility work gloves are crafted from premium grain goatskin leather with a composite Kevlar® lining for added cut and heat resistance. Reinforced in critical palm, thumb, and index finger areas and designed with an ergonomic wing thumb construction and Kevlar® stitching, they provide exceptional durability, comfort, and dexterity for heavy-duty industrial applications.

FEATURES:

Premium grain goatskin leather provides exceptional durability, comfort, and flexibility.
Composite Kevlar® lining delivers enhanced cut and heat resistance for added safety.
Reinforced palm design improves abrasion resistance and extends glove lifespan.
Extra reinforcement on thumb and index finger increases durability in high-wear areas.
Ergonomic wing thumb construction enhances dexterity and reduces hand fatigue.
Kevlar® stitched seams offer superior strength and long-lasting performance.
Heavy-duty utility glove engineered for demanding industrial and mechanical applications.

APPLICATIONS:

Material Handling, Mechanical Work, Maintenance Tasks, Construction Work, Metal Fabrication, Industrial Assembly
