CUT RESISTANT GLOVES SAFE FOR FOOD HANDLING

DESCRIPTION:

Cut Protection level ANSI A6. Easy to use and safe. Ideal for cutting, working with mandoline slicers, knives, cutters, graters and peelers in the kitchen, woodworking, carving, carpentry, oyster shucking, fish fillet processing and so much more...

Excellent comfort and dexterity to wear and grip.

Safe for food handling.

FEATURES:

A6 Cut Protection – Provides superior resistance against sharp blades for high-risk tasks.

Food-Safe Certification – Meets industry standards for safe food handling applications.

High-Dexterity Design – Ensures precise control for slicing, grating, and peeling.

Breathable & Lightweight Fabric – Reduces sweating and discomfort during prolonged use.

Enhanced Grip Technology – Improves handling efficiency in wet and dry conditions.

Multipurpose Utility – Suitable for food preparation, woodworking, and industrial tasks.

Durable & Long-Lasting Construction – Designed for extended wear and repeated use.

APPLICATIONS:

Food Handling

Alif International
