#### AVAILABLE SIZES

### HEAVY-DUTY OIL-RESISTANT IMPACT GLOVES

#### FEATURES:

- **Enhanced Grip:** Silicone dot palm ensures superior handling of tools and equipment, even in slippery or oily conditions.
- **Impact Protection:** TPR reinforcements on the back of the hand provide reliable protection against abrasions, bumps, and impacts.
- **Oil & Grease Resistance:** Designed to withstand exposure to lubricants and petroleum-based products while maintaining grip and dexterity.
- **Heavy-Duty Construction:** Crafted from robust materials with reinforced stitching for durability and longevity in tough environments.
- **Flexible Closure:** Secure cuff closure prevents debris and liquids from entering the glove, ensuring a snug fit.
- **Abrasion Resistance:** Shields hands from rough surfaces, ensuring long-lasting performance.
- **Multi-Industry Use:** Ideal for professionals in hazardous and high-impact work zones.

#### INDUSTRIES:

- **Oil & Gas Industry** – Provides grip and protection in petroleum-based environments.
- **Construction & Infrastructure** – Shields hands from abrasions, impact hazards, and slippery surfaces.
- **Manufacturing & Assembly** – Ensures precision handling and protection in production environments.
- **Automotive & Mechanical Work** – Enhances control and safety when handling machinery and tools.
- **Warehouse & Logistics Operations** – Improves grip and dexterity for handling packages and equipment.
- **Mining & Excavation** – Offers impact and abrasion resistance in rugged conditions.

#### APPLICATIONS:

- **Oil & Gas Industry** – Provides grip and protection in petroleum-based environments.
- **Construction & Infrastructure Work** – Shields hands from abrasions and impact hazards.
- **Manufacturing & Assembly** – Ensures precision handling and protection in production environments.
- **Automotive & Mechanical Work** – Enhances control and safety when handling machinery.
- **Warehouse & Logistics Operations** – Improves grip and dexterity for handling packages and equipment.
- **Mining & Excavation** – Offers impact and abrasion resistance in rugged conditions.
