FLEX001**

HEAVY-DUTY OIL-RESISTANT IMPACT GLOVES

The Stingray Flex 001 gloves provide superior protection and grip for industrial and construction workers. With a silicone dot palm for enhanced handling and thermoplastic rubber (TPR) for impact resistance, these gloves are ideal for heavy machinery and greasy conditions. Their durable construction ensures longevity, while oil resistance maintains dexterity and safety.

KEY FEATURES:

Enhanced Grip: Silicone dot palm offers superior grip for handling tools and equipment, even in slippery or oily conditions.

Impact Protection: TPR on the back of the hand provides reliable protection against abrasions, bumps, and impacts.

Oil and Grease Resistant: Designed to withstand exposure to lubricants and petroleum-based products while maintaining grip and dexterity.

Heavy-Duty Construction: Crafted from robust materials with reinforced stitching for durability and longevity in tough environments.

Flexible Closure: Features a secure cuff closure to prevent debris and liquids from entering the glove, ensuring a snug fit.

Versatile Use: Ideal for oil and gas industry, mechanics, warehouse logistics, and general maintenance tasks, enhancing both safety and productivity.

APPLICATIONS:

- Oil and Gas Industry
- Construction
- Manufacturing
- Mechanics
- Warehouse & Logistics
- Mining
- Demolition
- General Maintenance

These gloves are designed to enhance both safety and productivity in demanding work environments, where hand protection, grip, and resistance to oil and impact are essential. When selecting gloves for a specific application, be sure to consider the specific hazards and requirements of the task to ensure the right level of protection and comfort.
