XPRO® FINGERTIPS CRUSH PROTECTION IMPACT GLOVES

DESCRIPTION:

Crush the Risk, Not Your Fingertips: Introducing Our Ultimate Finger Protection Gloves with ANSI A6 Kevlar® and Reinforced Gel padding. Combines crush-resistant leather inside finger caps with a Kevlar® cut-resistant inside lining for a comprehensive defense against pinch-point hazards and sharp objects. If applicable, the gloves may provide insulation, making them suitable for use in cold weather conditions

FEATURES:

Dual-Layer Protection: Combines crush-resistant leather inside finger caps with Kevlar® lining for ultimate fingertip safety.

Reinforced Gel Palm: Absorbs impact forces to enhance grip and reduce vibration-related strain.

A6 Cut-Resistant Kevlar® Lining: Offers superior defense against cuts and abrasions while maintaining flexibility.

Precision Fit: Engineered for optimal dexterity and tactile sensitivity without compromising safety.

Pinch-Point Protection: Shields fingertips from crushing hazards in high-risk environments.

Abrasion Resistance: Maintains durability, ensuring long-lasting protection in demanding conditions.

Enhanced Grip Technology: Reinforced gel and textured palm provide a secure hold on tools and materials.

APPLICATIONS:

Construction. Mining. Oil & Gas. Utilities. Workshops. Foundry. Metal Works. Fabrication. Wood Works. Material Handling
