ALIF-1705
ELECTROLINE

AVAILABLE SIZES

PREMIUM GOATSKIN ELECTRICAL PROTECTOR GLOVES SAFETY WITH COMFORT

Model: Alif-1705 Electroline

Brand: XPRO® by Alif International

Type: Electrical Glove Leather

Protector Intended Use: Designed to be worn over electrical insulating rubber gloves to provide mechanical protection during electrical and utility work.

FEATURES:

- **Material:** Premium goatskin leather for superior abrasion resistance and comfort
- **Cuff:** Split cow leather safety cuff for added wrist and forearm protection
- **Thumb:** Reinforced straight thumb for enhanced durability
- **Closure:** Adjustable buckle strap for a secure fit
- **Design:** Ergonomic fit for dexterity and reduced hand fatigue
- **Application:** Specifically designed as an over-glove for electrical insulating rubber gloves

APPLICATIONS:

- General Maintenance
- Construction Sites
- Welding Workshops
- Utility Services- Electrical Installations

USAGE INSTRUCTIONS:

- Always wear over approved rubber insulating gloves.
- Inspect before each use for signs of wear or damage.
- Do not use as a standalone glove for electrical protection—must be paired with insulating gloves.

High-dexterity goatskin gloves with safety cuff, abrasion resistance & secure fit for electrical and industrial use.
