### Impact and Cut Resistance Glove

#### FEATURES:

- **Superior Impact & Cut Protection:** TPR reinforcements on knuckles and fingers provide ISEA Level 2 impact protection, while 360° KEVLAR® lining ensures A8 cut resistance.
- **Premium Goatskin Leather:** Offers exceptional dexterity and abrasion resistance for demanding industrial applications.
- **Reinforced Thumb Saddle:** Enhances durability at critical wear points, extending glove lifespan.
- **Elasticated Cuff:** Provides a snug fit, keeping dirt and debris away for a cleaner work experience.
- **Slip-On Cuff with Hook-and-Loop Closure:** Ensures a secure fit, allowing users to work with confidence and comfort.
- **Multi-Industry Use:** Designed for professionals in high-impact and hazardous work environments.
- **Available in Winter Version:** Offers additional insulation for cold-weather applications.

#### INDUSTRIES:

- **Industrial Construction** – Provides impact and cut protection for workers handling heavy materials.
- **Metalworking & Fabrication** – Shields hands from abrasions, sharp edges, and punctures.
- **Oil & Gas Refinement** – Ensures grip and safety in petroleum-based environments.
- **Mining & Excavation** – Offers impact resistance and durability in rugged conditions.
- **Automotive & Heavy Equipment Manufacturing** – Enhances control and safety when handling machinery and tools.
- **Utilities & Electrical Maintenance** – Provides reliable safety for specialized industrial applications.

#### APPLICATIONS:

- **Steel Foundry & Forging** – Protects hands from extreme heat and sharp metal edges.
- **Sheet Metal Manufacturing** – Shields against abrasions and punctures during metal handling.
- **Oil & Gas Operations** – Ensures grip and safety in petroleum-based environments.
- **Mining & Excavation** – Provides impact and cut protection in rugged conditions.
- **Railroad Maintenance** – Enhances grip and durability for handling heavy equipment.
- **Forklift & Heavy Machinery Operation** – Prevents injuries from crush points and sharp surfaces.
