**XPRO® IMPACT AND CUT RESISTANT WELDING GLOVES, GOATSKIN LINED WITH KEVLAR®
ARAMID FABRIC FOR HEAT AND CUT RESISTANCE**

DESCRIPTION:

XPRO® 3TNLPRC6, Impact and Cut Resistant Welding Gloves, Goatskin lined with Kevlar® aramid fabric for heat and cut resistance

HIGH DEXTERITY GLOVES: XPRO 3TNLPRC6 Impact Tig welding gloves constructed with the goat skin soft leather to provide the excellent dexterity and comfort

LEATHER REINFORCEMENT: Split leather reinforcing patch on the palm and fingers which makes it a perfect firm grip gloves

KEVLAR®: Stitched with Kevlar® thread for strength and durability. Kevlar® aramid fabric / lining inside the gloves to give the additional protection of puncture, heat and cut resistant during the welding

IMPACT: Specially designed Thermoplastic Rubber (TPR) on the back of the hand offers impact protection and safeguards against abrasions, bumps, and disperse the force of impact, reducing the risk of hand injuries.

Cut Resistant: Level A6 Cut Resistant Gloves

Puncture Resistant: Level 4 Puncture Resistant Gloves

Impact Resistant: Level 2 Impact Resistant Gloves

REFLECTOR TAPE ON DURABLE LEATHER CUFF: Leather cuff with hi viz reflector tape provides an additional feature of safety while working in the dark with the excellent abrasion resistance and also protects the wrist from heat, sparks and flames

FEATURES:

Premium Goatskin Leather Construction – Ensures high dexterity, flexibility, and comfort for precision welding tasks.

Kevlar® Aramid Lining – Provides Level A6 cut protection and heat resistance for superior safety.

Split Leather Reinforced Palm & Fingers – Enhances grip strength and durability in high-contact areas.

Impact Protection with TPR Design – Absorbs shock, disperses force, and minimizes hand injuries.

Puncture & Abrasion Resistance – Level 4 puncture protection for handling sharp materials safely.

Hi-Viz Reflector Tape on Leather Cuff – Improves visibility and safety in dark environments.

Fire- & Heat-Resistant Design – Shields hands from sparks, flames, and welding hazards.

APPLICATIONS:

Welding & Fabrication, Construction, Oil & Gas Industry, Heavy Equipment Handling, Steel Plants, Machinery Operations
