## Cut Resistant Welding Gloves with Kevlar® Aramid Lining & Hi-Viz Leather Cuff

### FEATURES:

- **Premium Goatskin Construction** – Provides exceptional abrasion resistance and durability for high-risk tasks.
- **Reinforced Palm** – Enhances grip and protection, ensuring secure handling in all conditions.
- **Kevlar®/Aramid Engineered Yarn Lining** – Offers Cut-Level A6 protection, safeguarding against sharp objects.
- **Kevlar® Thread Stitching** – Ensures maximum strength and durability, preventing seam failures.
- **Extended Gauntlet Cuff** – High-visibility stripping adds extra protection for wrists and forearms.
- **Keystone Thumb Design** – Improves dexterity and comfort, reducing hand fatigue.
- **Available in Multiple Cut Levels (A2-A9)** – Tailored for various safety requirements across industries.

### INDUSTRIES:

- **Oil & Gas Sector** – Designed for drilling, refining, and maintenance operations.
- **Mining & Quarrying** – Provides cut resistance and durability in extreme environments.
- **Manufacturing & Engineering** – Protects workers handling industrial machinery and components.
- **Steel & Metal Processing** – Shields against heat, sparks, and sharp edges.
- **Construction & Infrastructure Development** – Ensures worker safety in high-risk environments.
- **Agriculture & Heavy Equipment Handling** – Supports farm and industrial machinery operators.

### APPLICATIONS:

- **Oil and Gas Industry** – Protects workers handling hazardous materials and equipment.
- **Mining Operations** – Shields against abrasion, sharp objects, and heavy machinery hazards.
- **Manufacturing & Appliance Production** – Ensures safe handling of industrial components.
- **Steel Plants & Metalworking** – Provides cut resistance and durability in extreme environments.
- **Construction & Heavy Equipment Handling** – Ideal for rigging, assembly, and material transport.
- **Forklift & Farm Equipment Operation** – Offers secure grip and impact protection for machinery operators.
