GOATSKIN IMPACT & CUT RESISTANCE GLOVES

DESCRIPTION:

Premium goatskin leather resists water and oil for superior durability and flexibility. Cut Level A6 for advanced cut resistance against sharp objects. ISEA Puncture Level 4 for high puncture protection. ISEA 138 Impact Level 2 with TPR reinforcements for effective shock absorption. Integrated foam padding for vibration reduction and comfort. Heat-resistant up to 500°F (260°C), meeting Conductive Heat Level 4 standards.

Also available in Impact Level 3

FEATURES:

- Premium Water & Oil-Resistant Goatskin** – Ensures secure grip and durability in slippery conditions.
- A6 Cut Protection** – Shields hands from sharp tools, blades, and industrial hazards.
- Impact Level 2 Reinforcement** – Absorbs moderate impact forces, reducing injury risks.
- Puncture Level 4 Resistance** – Provides advanced protection against puncture hazards.
- Reinforced Palm & Fingers** – Enhances durability and grip for industrial applications.
- Breathable & Flexible Design** – Allows comfort and dexterity for prolonged use.
- Optimized for Heavy-Duty Work** – Designed for rugged industrial performance.

APPLICATIONS:

Oil & Gas, Mining, Automotive, Steel Foundry and Forge, Rigging, Fabrication, Aviation, Manufacturing, Forklift Operation, Welding, Heavy-duty industrial, construction
