AVAILABLE SIZES

Heavy-Duty Impact and Cut-Resistant Grip Gloves - Ultimate Protection for Tough Jobs

FEATURES:

- **Reinforced TPR Protection** – Strategically placed Thermoplastic Rubber on fingers and knuckles ensures robust impact resistance in hazardous zones.
- **Kevlar® Aramid Lined Interior** – Offers exceptional cut protection against sharp and abrasive materials.
- **Double-Layer Synthetic Leather Palm** – Delivers long-lasting durability and improved control during heavy use.
- **Silicone Dot Grip Pattern** – Enhances grip performance on oily, wet, and dry surfaces.
- **Breathable Hi-Vis Backing** – Improves airflow and visibility, ideal for low-light and warm environments.
- **Ergonomic Fit & Flexible Design** – Provides all-day comfort with reduced hand fatigue.
- **Slip-On Cuff with Secure Fit** – Allows quick donning and secure hand positioning in fast-paced work scenarios.

INDUSTRIES:

- **Oil & Gas Sector** – Designed for high-impact fieldwork with demanding conditions.
- **Construction & Heavy Equipment** – Provides cut, grip, and crush protection on tough job sites.
- **Mining & Natural Resource Extraction** – Supports workers exposed to uneven terrain and materials.
- **Manufacturing & Assembly** – Ideal for component handling, machine work, and logistics tasks.
- **Emergency & First Response** – Protects responders in high-risk, fast-paced situations.
- **Metal Fabrication & Processing** – Delivers cut resistance and grip in fabrication environments.

APPLICATIONS:

- **Oil Rigging & Drilling Operations** – Protects hands from vibration, impact, and slick surfaces.
- **Heavy Machinery & Equipment Handling** – Supports precision control and abrasion resistance.
- **Material Handling & Assembly Lines** – Enhances dexterity and durability for repetitive tasks.
- **Mining & Quarrying** – Shields hands in rugged, debris-heavy environments.
- **Metalwork & Welding Support** – Offers resilience against hot surfaces and sharp edges.
- **Emergency & Rescue Operations** – Ensures protection and visibility in urgent response scenarios.
