AVAILABLE SIZES

OIL & GAS, IMPACT & CUT RESISTANT GLOVE

FEATURES:

- **Oil-Resistant High-Grip Palm** – Silicone-dotted synthetic leather palm ensures superior grip and control, even in wet or oily conditions.
- **Advanced Impact Protection** – TPR shields safeguard the back of the hand, knuckles, and fingers, minimizing impact-related injuries.
- **A6 Cut Resistance** – High-performance cut-resistant liner provides excellent protection against sharp objects and machinery hazards.
- **Kevlar®-Stitched Seams for Durability** – Reinforces high-wear areas, ensuring maximum longevity and resistance to tearing.
- **High-Visibility Safety Design** – Hi-vis spandex back enhances visibility in low-light conditions, improving worker safety.
- **Secure & Comfortable Fit** – Extended neoprene wrist closure with TPR pull tab ensures a snug fit, easy donning, and enhanced wrist protection.
- **Flexible & Dexterous Construction** – Designed for excellent mobility, allowing workers to perform tasks efficiently without compromising protection.

INDUSTRIES:

- **Oil & Gas Industry** – Ideal for rig workers, drill operators, and pipeline workers handling heavy-duty equipment.
- **Mining & Quarrying** – Provides abrasion, cut, and impact protection for workers dealing with heavy tools.
- **Construction & Heavy Equipment Handling** – Ensures safety and grip for machinery operators and steelworkers.
- **Automotive & Manufacturing** – Designed for assemblers, metalworkers, and mechanics handling sharp components.
- **Logistics & Transportation** – Protects workers from impact injuries and cuts during material handling.
- **Industrial Maintenance & Repair** – Shields hands from hazards in factory and engineering environments.

APPLICATIONS:

- **Oil Rig & Drilling Operations** – Provides grip and protection in high-impact, greasy conditions.
- **Heavy Machinery Handling** – Ensures secure handling of tools, chains, and cables.
- **Mining & Extraction** – Shields hands from abrasions, sharp objects, and impact-related injuries.
- **Industrial Maintenance & Repair** – Ideal for mechanics, engineers, and factory workers.
- **Construction & Steelwork** – Protects hands from impact, abrasions, and cuts in high-risk environments.
- **Material Handling & Assembly** – Ensures safety for warehouse workers, transporters, and loading crews.
