

EN ISO 21420:2020
CAT.II

**XPRO
2X23TC6**

AVAILABLE SIZES

Breathable Impact & Cut-Resistant Gloves

FEATURES:

- **Premium Goatskin Leather Palm** – Offers exceptional dexterity and abrasion resistance for demanding tasks.
- **Cool Mesh Venting System** – Improves airflow by up to 60%, ensuring better heat dissipation and comfort.
- **A6 Cut Protection** – Advanced engineered yarn lining provides superior defense against sharp materials.
- **Ultra-Flexible Impact Protection** – Shields hands from forceful impacts while maintaining full flexibility.
- **Perfect Shape & Sizing** – Designed for ergonomic fit and ease of movement.
- **Available in Multiple Versions** – Includes **winter model (2X23TTC6)** and **higher cut levels (A3-A9)** for industry-specific protection.
- **Heavy-Duty Industrial Design** – Durable construction ensures long-lasting performance in harsh environments.

INDUSTRIES:

- **Oil & Gas Exploration** – Essential for rig operators, drillers, and industrial field professionals.
- **Mining & Heavy-Duty Industry** – Shields workers from abrasions, heat exposure, and mechanical hazards.
- **Manufacturing & Processing Plants** – Enhances hand safety in industrial production settings.
- **Automotive & Mechanical Engineering** – Improves grip and precision for technicians.
- **Glass & Metal Fabrication** – Provides cut resistance for handling delicate materials.
- **Construction & Infrastructure Development** – Designed for high-impact labor and safety-critical tasks.

APPLICATIONS:

- **Appliance Manufacturing** – Provides grip and precision handling for assembling components.
- **Oilfield Operations** – Shields workers from abrasions, impact hazards, and chemical exposure.
- **Mining & Excavation Work** – Offers high cut and impact resistance in rugged environments.
- **Automotive Maintenance & Assembly** – Ensures protection while working with mechanical components.
- **Construction & Engineering** – Protects against impact, abrasions, and tough working conditions.
- **Glass Handling & Metal Stamping** – Prevents cuts and punctures when working with sharp materials.
