AVAILABLE SIZES

Impact & Cut-Resistant Gloves - A5 Protection & High-Visibility Safety

FEATURES:

- **A5 Cut Resistance** – Kevlar®-lined palm ensures protection against sharp objects and hazardous materials.
- **Durable Synthetic Leather Palm** – Enhances grip, abrasion resistance, and long-term durability.
- **TPR Backhand Protection (Level 2)** – Shields fingers and knuckles from impact-related hazards.
- **High-Visibility Design** – Improves worker safety in low-light and hazardous environments.
- **Multi-Level Impact Protection** – Available in Impact Levels 1, 2, and 3 for customized protection.
- **Winter Version Available (9SRTTC5)** – Offers insulation for cold-weather work environments.
- **Higher Cut Level Options (A2-A9)** – Ensures tailored safety based on industrial risks.

INDUSTRIES:

- **Oil & Gas Exploration** – Essential for rig operators, refinery workers, and field technicians.
- **Engineering & Manufacturing** – Shields workers involved in metal fabrication and industrial assembly.
- **Utilities & Infrastructure Maintenance** – Provides reliable safety for electrical and plumbing technicians.
- **Logistics & Warehouse Operations** – Enhances grip and abrasion resistance for material handlers.
- **Construction & Heavy-Duty Industry** – Protects laborers exposed to harsh environments.
- **Emergency Response & Firefighter Services** – Ensures safety and performance in rescue missions.

APPLICATIONS:

- **Oil & Gas Operations** – Shields workers handling equipment, pipes, and chemical exposure.
- **Engineering & Industrial Work** – Provides cut and impact resistance for precision tasks.
- **Utilities & Maintenance** – Offers hand protection in electrical, plumbing, and general utility work.
- **Material Handling & Logistics** – Ensures secure grip and safety in handling heavy loads.
- **Construction & Infrastructure Development** – Protects against abrasions, impacts, and environmental hazards.
- **Emergency Response & Firefighter Extrication** – Enhances dexterity and impact resistance for rescue operations.
