

EN ISO 21420:2020

Safety for every industry.

**XPRO
LM510C6**

AVAILABLE SIZES

Water/Oil Resistance, Cut Protection & Hi-Viz Safety

FEATURES:

- **Water & Oil-Resistant Cow Grain Leather** – Provides strong durability and grip in wet and greasy conditions.
- **Aramid Fabric Lining for Cut & Heat Resistance** – Ensures certified protection against sharp objects and heat exposure.
- **Reinforced Palm & Thumb** – Reduces wear and tear in high-impact work areas.
- **Hi-Viz Stripping on Gauntlet** – Enhances visibility in hazardous and low-light environments.
- **Multiple Protection Levels** – Available in cut levels A2-A9 to meet industry-specific safety requirements.
- **Impact Version (LM510TC6) Available** – Offers extra backhand protection for high-risk jobs.
- **Winter Model (LM510WC6) Available** – Provides insulation for cold-weather conditions.

INDUSTRIES:

- **Utilities & Energy Sector** – Essential for field technicians working in electrical, gas, and pipeline maintenance.
- **Oil & Gas Industry** – Provides impact, abrasion, and chemical resistance for rig operators and engineers.
- **Mining & Raw Materials Extraction** – Shields workers handling equipment in underground and surface mining.
- **Manufacturing & Industrial Fabrication** – Ensures cut, heat, and abrasion resistance in production environments.
- **Welding & Metal Processing** – Enhances dexterity and protection for welders working with extreme temperatures.
- **Construction & Heavy-Duty Applications** – Designed for high-risk labor requiring superior durability.

APPLICATIONS:

- **Utility Construction & Repairs** – Shields workers from abrasions, electrical risks, and impact hazards.
- **Pipeline Operations** – Provides grip, cut resistance, and protection in oil and gas environments.
- **Mining & Excavation Work** – Ensures hand safety in rugged, abrasive underground conditions.
- **Welding & Industrial Fabrication** – Protects against heat, sparks, and mechanical risks.
- **Infrastructure Maintenance** – Enhances durability for technicians handling repairs and installations.
- **Heavy-Duty Material Handling** – Reduces vibration stress while improving grip control.
