#### AVAILABLE SIZES

## CUT AND HEAT RESISTANCE LEATHER MIG WELDER GLOVES

### FEATURES:

- **A5 Cut Resistance** – Provides superior protection against sharp objects.
- **5 Puncture Resistance** – Shields hands from puncture hazards in industrial settings.
- **4 Heat Resistance** – Ensures safety in high-temperature environments.
- **Kevlar® Fiber Lining** – Enhances durability and flame resistance.
- **Soft Cow Grain Leather Palm** – Offers flexibility and comfort for extended wear.
- **Suede Leather Back & Cuffs** – Improves durability while maintaining a secure fit.
- **6" Long Gauntlet Cuffs** – Provides extended wrist and forearm protection.

### INDUSTRIES:

- **Metalworking & Fabrication** – Essential for welders and metalworkers.
- **Manufacturing & Industrial Safety** – Ensures compliance with workplace safety standards.
- **Automotive & Transportation** – Used in vehicle manufacturing and repair.
- **Shipbuilding & Marine Industry** – Provides protection in high-risk environments.
- **Oil & Gas Sector** – Shields workers from extreme heat and hazardous conditions.
- **Emergency & Disaster Response Teams** – Provides safety to professionals dealing with fire-related incidents.

### APPLICATIONS:

- **Welding Operations** – Essential for shielding hands from sparks and molten metal.
- **Steel Mills & Foundries** – Protects workers in high-heat environments.
- **Shipbuilding & Marine Work** – Ensures durability in heavy-duty industrial tasks.
- **Automotive & Mechanical Work** – Used in vehicle assembly and repair.
- **Construction & Heavy Engineering** – Provides impact and heat protection.
- **Oil & Gas Industry** – Shields workers from extreme heat and hazardous conditions.
