DESCRIPTION:

XPRO® MecPro 19STXG

Impact Resistance Mechanics Gloves

Synthetic leather palm and fourchette with silicon pattern for maximum grip, Hi-Viz breathable spandex fabric back with ultra-flexible TPR Impact protection, Hook and loop closure

Also available in a Winter Version

Also Available in higher cut level A2-A9

FEATURES:

Synthetic Leather Palm & Fourchette – Provides durability, comfort, and enhanced grip.

Silicon Grip Pattern – Maximizes control and slip resistance for precision handling.

Hi-Viz Breathable Spandex Back – Ensures flexibility, ventilation, and visibility in demanding environments.

Ultra-Flexible TPR Impact Protection – Shields hands from impact and abrasion while maintaining dexterity.

Hook & Loop Closure – Enables a secure, adjustable fit for optimal performance.

Winter Version Available – Offers insulation and protection in cold-weather conditions.

Cut Protection Levels A2-A9 Available – Provides safety against sharp objects with various cut resistance options.

APPLICATIONS:

Automotive Repair & Maintenance, Construction & Infrastructure, Industrial Work, Assembly & Manufacturing, Heavy Equipment Handling, Warehouse & Logistics
