AVAILABLE SIZES

High Dexterity, Touchscreen & Sandy Finish Grip

FEATURES:

- **High Dexterity Design** – Allows precise handling while maintaining flexibility and grip.
- **Touch Screen Compatibility** – Enables seamless smartphone and tablet use without removing gloves.
- **13-Gauge Nylon Knit Shell** – Provides durability and flexibility for various work environments.
- **7-Gauge Acrylic Terry Interior Liner** – Enhances warmth and insulation for cold-weather applications.
- **Nitrile Coated Palm & Fingertips** – Offers excellent grip and protection against oils, moisture, and abrasions.
- **Sandy Finish Coating** – Improves slip resistance for secure handling of tools and materials.
- **Black/Black Colorway** – Ensures a professional and sleek appearance.

INDUSTRIES:

- **Construction & Infrastructure Development** – Supports workers exposed to harsh weather.
- **Automotive & Mechanical Engineering** – Essential for professionals handling greasy and wet components.
- **Warehousing & Logistics** – Enhances grip and efficiency for material handling in cold environments.
- **Manufacturing & Industrial Processing** – Protects workers from abrasions while maintaining dexterity.
- **Oil & Gas Industry** – Provides reliable protection in extreme working conditions.
- **General Maintenance & Utilities** – Supports technicians working in low-temperature environments.

APPLICATIONS:

- **Cold-Weather Construction** – Shields hands while ensuring grip and flexibility.
- **Automotive Repairs & Maintenance** – Protects hands in chilly workshop environments.
- **Warehousing & Logistics** – Provides warmth and grip for handling packages and equipment.
- **Industrial Processing & Manufacturing** – Offers dexterity and protection for high-precision tasks.
- **General Maintenance & Utility Work** – Ensures reliable performance for outdoor repairs.
- **Oil & Gas Operations** – Guards against cold, moisture, and abrasive materials.
