## Oil & Gas Impact Safety Gloves - A8 Cut Protection & Heavy-Duty Durability

### FEATURES:

- **A8 Cut Protection** – Engineered yarn ensures maximum cut resistance for handling sharp materials.
- **Microfiber Leather Palm** – Provides comfort, flexibility, and enhanced grip.
- **Mesh Fabric Backing** – Improves breathability, keeping hands cool during long hours of work.
- **Reinforced Palm with Rubber Patch** – Ensures extra grip in wet, dry, and oily conditions.
- **TPR Backhand & Finger Protection** – Impact-resistant design safeguards hands from forceful impacts.
- **Stretchable Elastic Wrist Closure** – Offers a secure fit, making donning and removal effortless.
- **Heavy-Duty Construction** – Engineered for rigging, oil and gas operations, steel foundries, and maintenance work.

### INDUSTRIES:

- **Oil & Gas Exploration** – Essential for rig operators, pipeline workers, and field professionals.
- **Steel & Metal Fabrication** – Shields workers from abrasions, high temperatures, and puncture risks.
- **Manufacturing & Processing Plants** – Ensures worker safety in industrial production settings.
- **Mining & Excavation Operations** – Provides impact and cut protection for underground labor.
- **Railroad Maintenance & Logistics** – Enhances grip and abrasion resistance for material handling.
- **Construction & Heavy-Duty Industry** – Designed for high-risk applications requiring superior hand protection.

### APPLICATIONS:

- **Oil & Gas Industry** – Shields hands from impact hazards, abrasions, and chemical exposure.
- **Metal Sheet Rigging** – Provides cut protection and grip for handling metal sheets and structures.
- **Steel Foundry & Forge Work** – Ensures heat and impact protection for industrial environments.
- **Vehicle Maintenance & Repair** – Enhances grip and durability for mechanics working with tools.
- **Heavy-Duty Industrial Tasks** – Supports workers exposed to abrasions, sharp objects, and mechanical hazards.
- **Construction & Engineering** – Protects against impact, cuts, and tough working conditions.

Safety for every industry.
