

EN ISO 21420:2020

AVAILABLE SIZES

Goatskin Leather Safety Work Gloves - Maximum Durability & Comfort

FEATURES:

- **Durable & Flexible:** Made from high-quality goatskin leather for superior durability and extended wear.
- **Reinforced Index Finger:** Strengthens high-wear areas, ensuring longevity and ease of movement.
- **Secure Fit:** Ergonomically designed for a snug fit, providing optimal control and safety.
- **Wing Thumb Construction:** Enhances comfort and minimizes hand fatigue during prolonged use.
- **Multi-Industry Use:** Suitable for hazardous work environments, balancing protection and dexterity.
- **Abrasion Resistance:** Shields hands from rough surfaces, ensuring long-lasting performance.
- **Enhanced Grip:** Provides a secure hold on tools and materials, improving work efficiency.

INDUSTRIES:

- **Industrial Assembly & Manufacturing** – Ensures precision handling and protection in production environments.
- **Construction & Infrastructure Work** – Shields hands from abrasions and impact hazards.
- **Metalworking & Fabrication** – Protects against sharp edges and rough surfaces.
- **Oil & Gas Operations** – Provides grip and durability in demanding conditions.
- **Automotive & Mechanical Work** – Enhances control and safety when handling machinery.
- **Electrical & Utilities Maintenance** – Offers protection in high-risk environments.

APPLICATIONS:

- **Industrial Construction** – Provides durability and flexibility for workers handling heavy materials.
- **Metalworking & Fabrication** – Shields hands from abrasions, sharp edges, and rough surfaces.
- **Oil & Gas Refinement** – Ensures grip and protection in demanding environments.
- **Automotive & Mechanical Work** – Enhances control and safety when handling machinery and tools.
- **Electrical & Utilities Maintenance** – Offers protection in high-risk environments requiring precision handling.
- **Controlled Environments (Manufacturing & Labs)** – Provides reliable safety for specialized industrial applications.
