#### AVAILABLE SIZES

## Cut & Sewn PVC Dipped Glove - Durable Liquid Protection & Grip

### FEATURES:

- **Red Brown PVC Coating** – Provides enhanced durability and resistance to wear.
- **Single-Dipped Interlock Lining** – Ensures comfort while maintaining liquid protection.
- **Extended Gauntlet Design (27-45 cm)** – Offers superior wrist and forearm coverage.
- **Chemical & Liquid Resistance** – Shields hands from exposure to hazardous substances.
- **Flexible & Ergonomic Fit** – Allows ease of movement for precision handling.
- **Moisture Absorption Properties** – Keeps hands dry during prolonged use.
- **Heavy-Duty Construction** – Designed for industrial applications requiring robust protection.

### INDUSTRIES:

- **Manufacturing & Industrial Safety** – Essential for workers handling machinery and chemicals.
- **Chemical Processing & Refining** – Used in environments requiring liquid-resistant gloves.
- **Automotive & Mechanical Work** – Protects hands during maintenance and repair tasks.
- **Construction & Engineering** – Ensures safety in heavy-duty applications.
- **Oil & Gas Industry** – Shields workers from exposure to hazardous substances.
- **Warehouse & Logistics** – Provides protection for material handling and packaging.

### APPLICATIONS:

- **Maintenance & Repair Work** – Ideal for handling tools and machinery safely.
- **General Plant Use** – Provides protection in industrial environments.
- **Basic Liquid Protection** – Shields against mild chemical exposure.
- **Parts Cleaning & Handling** – Ensures safety when working with solvents and fluids.
- **Chemical Processing & Handling** – Used in industries requiring chemical-resistant gloves.
- **Warehouse & Logistics Operations** – Suitable for handling materials in storage facilities.
