AVAILABLE SIZES

OIL & GAS, A7 CUT RESISTANT GLOVE WITH IMPACT PROTECTION

DESCRIPTION:

DryTuff® water and oil repellent goatskin leather, lined with Kevlar®, para aramid, steel, and polyester fibers Cut level A7, Impact Protection Level 2 Heavy-duty flame-resistant TPR guards protect fingers, back of the hand, and wrist from shocks. EVA foam padding on the palm and wrist reduces hand fatigue, Secure Shirred Elastic Wrist, Extended cowsplit Cuff.

FEATURES:

- **Durable Outer Shell:** Constructed with DryTuff oil and water-resistant full-grain goatskin leather, ensuring excellent flexibility, durability, and long-lasting protection even in oily or wet conditions.
- **High-Cut Resistance Liner:** Reinforced interior made from a blend of para-aramid, steel, and polyester fibers, offering exceptional cut and abrasion resistance.
- **Thermal Insulation:** Features 3M™ Thinsulate™ C100 lining combined with an extra layer of soft fleece for superior warmth in cold working environments.
- **Impact 2 Protection:** Equipped with heavy-duty, flame-resistant TPR (thermoplastic rubber) on the back of hand, fingers, and wrist to absorb shocks and protect against impact injuries.
- **Vibration-Dampening Protection:** Features EVA foam padding on the palm and wrist to absorb impact and reduce hand fatigue from prolonged tool or machinery use.
- **Flame-Resistant Stitching:** Entire glove is stitched with Kevlar® thread, adding superior strength and resistance to heat and flame.
- **Gauntlet Cuff Style:** Designed with an extended gauntlet cuff for additional forearm protection and easy on/off during use.

APPLICATIONS:

Oil and Gas Industry, Appliance Manufacturing, Steel Plants, Industrial Construction, Forklift Driver, Farm Equipment, Welding, TIG Work

Alif International
