## FLAME-RESISTANT NECK GAITER FOR WARMTH & PROTECTION

### DESCRIPTION:

This is inherently flame retardant, additionally featured with very soft handfeel and double layer protection. Providing excellent neck coverage, it is designed to keep you warm and protected on the job. This neck gaiter is sewn with flatlock-seams to prevent uncomfortable chafing around the neck. Neck Gaiter Provides flame and thermal protection to the neck.

### FEATURES:

- Inherent Flame-Retardant Fabric** – Offers permanent fire resistance without degrading over time.
- Soft Hand Feel & Double Layer Protection** – Ensures comfort and superior thermal shielding.
- Extended Neck Coverage** – Provides full protection from cold and hazardous environments.
- Flatlock-Seam Construction** – Prevents irritation and chafing around the neck.
- Breathable & Moisture-Wicking Material** – Keeps the wearer dry and comfortable.
- Ergonomic & Lightweight Design** – Allows unrestricted movement during work.
- Multi-Industry Safety Compliance** – Meets standards for thermal and flame protection.

### APPLICATIONS:

Construction, Mining, Oil & Gas, Utilities, Sports
