AVAILABLE SIZES

TEXTURED NITRILE PALM-COATED TOUCHSCREEN GLOVES

DESCRIPTION:

Fine Gauge Machine knitted Nylon/Spandex plaited mid grey shell with touchscreen latex coating on palm.
Provides good grip in wet, dry and oily condition.
Offers excellent abrasion resistance.

FEATURES:

- **Fine Gauge Nylon/Spandex Shell**- Lightweight, breathable, and form-fitting for precision tasks and all-day comfort.
- **Touchscreen-Compatible Latex Palm Coating**- Enables use of digital devices without removing gloves—ideal for modern industrial workflows.
- **Plaited Mid-Grey Shell Finish**- Offers a clean, professional appearance while concealing dirt and wear.
- **Superior Grip in Wet, Dry & Oily Conditions**- Latex coating ensures secure handling across variable environments.
- **Excellent Abrasion Resistance**- Durable for repetitive tasks involving friction and contact with rough surfaces.
- **Seamless Knit Construction**- Eliminates pressure points and enhances dexterity for fine motor control.
- **Multi-Industry Utility Glove**- Versatile for light-to-medium duty applications across industrial sectors.

APPLICATIONS:

Oil and Gas, Manufacturing, Automotive, Aviation, Light assembly, Maintenance, Metal working and fabrication, Workshops, Logistics and warehousing

Safety for every industry.
