IMPACT GLOVE WITH SYNTHETIC LEATHER PALM, KEVLAR LINED FOR CUT PROTECTION LEVEL ANSI A5

DESCRIPTION:

Durable Synthetic Leather Palm enhances grip and abrasion resistance for long-lasting performance, Palm lined with composite Kevlar® Lining provides additional cut resistance level A5, TPR on back of hand provide Impact Protection Level 2, Hi-viz breathable spandex fabric on back improves worker safety in low-light conditions.

FEATURES:

A5 Cut Resistance – Kevlar®-lined palm ensures protection against sharp objects and hazardous materials.

Durable Synthetic Leather Palm – Enhances grip, abrasion resistance, and long-term durability.

TPR Backhand Protection (Level 2) – Shields fingers and knuckles from impact-related hazards.

High-Visibility Design – Improves worker safety in low-light and hazardous environments.

Multi-Level Impact Protection – Available in Impact Levels 1, 2, and 3 for customized protection.

Winter Version Available (9SRTC5) – Offers insulation for cold-weather work environments.

Higher Cut Level Options (A2-A9) – Ensures tailored safety based on industrial risks.

APPLICATIONS:

Oil and Gas, Engineering, Utilities, Material Handling, Construction, Emergency Responder, Extrication, EMT Firefighter
