HIGH ABRASION & CUT RESISTANT EXTRACTION RESCUE GLOVES

DESCRIPTION:

The XPRO® impact resistant work gloves feature red Armortex® palms that bring abrasion resistance to a whole new level. These unique gloves were engineered specifically for the oil patch. They offer great cut and puncture resistance. The smart styling of this impact resistant glove includes high-viz backs and a flexible design that allows the full range of hand movement. Impactpro 9ARMOTC1 glove offers protection where you need it and flexibility where you want it. The neoprene cuffs allow the wearer to put these gloves on and take them off very easily. In addition, the extra cushioning at the wrist makes for a great comfort feature

FEATURES:

- Armortex® Abrasion-Resistant Palm** – Enhances durability and grip strength, ensuring long-lasting wear.
- Smart High-Viz Design** – Improves visibility in low-light and high-risk environments.
- Flexible Mechanics-Style Backhand** – Allows a full range of motion without stiffness.
- Thermoplastic Rubber (TPR) Impact Protection** – Shields knuckles and fingers from impact injuries.
- Cut & Puncture Resistance** – Provides extra hand protection for rugged industrial applications.
- Neoprene Cuff with Velcro Closure** – Ensures a snug and secure fit while preventing debris entry.
- Wrist Cushioning for Comfort** – Reduces strain and fatigue for prolonged use.

APPLICATIONS:

Oilfield, Mining, Drilling, Rigging, Construction, Railroads

Alif International
