AVAILABLE SIZES

SYNTHETIC LEATHER / SPANDEX MECHANICS GLOVES

DESCRIPTION:

Durable synthetic leather palm, lined with composite Kevlar® aramid fabric for cut protection (ANSI A4), and an elastic back for a snug fit. Hi-vis reflective printing enhances visibility in low-light conditions. The breathable and stretchable spandex back improves flexibility for high-dexterity tasks.

FEATURES:

- **Durable Synthetic Leather Palm** – Offers excellent grip, abrasion resistance, and long-lasting performance.
- **Kevlar® Aramid Lining** – Provides reliable cut protection for handling sharp tools and materials.
- **Elastic Back Design** – Ensures a snug, secure fit for precision tasks and active movement.
- **Hi-Vis Reflective Printing** – Enhances visibility for safety in dimly lit or hazardous work zones.
- **Breathable Spandex Back** – Promotes airflow and reduces heat buildup during extended wear.
- **Stretchable Fabric Construction** – Supports full range of motion for high-dexterity applications.
- **Lightweight & Versatile Design** – Ideal for both indoor and outdoor general-purpose use.

APPLICATIONS:

Automotive, Construction, Equipment operation, General Purpose, Yard & Field Work, Machine operations, General Maintenance
