FULL-FINGER MOISTURE-WICKING LINERS FOR COMFORT, FIT & PROTECTION UNDER SAFETY GLOVES

DESCRIPTION:

General purpose glove liners are worn under other gloves to absorb moisture, provide a better fit, and increase comfort. These gloves are full-finger to cover the entire hand.

FEATURES:

- **Full-Finger Coverage**- Protects the entire hand for enhanced comfort and insulation.
- **Moisture Absorption**- Wicks away sweat to keep hands dry during extended wear.
- **Improved Fit**- Enhances glove conformity for better dexterity and reduced slippage.
- **Comfort Layer**- Reduces friction and irritation from outer gloves.
- **Lightweight & Breathable**- Suitable for all-day use without overheating.
- **Reusable & Washable**- Designed for repeated use and easy maintenance.
- **Universal Compatibility**- Works with most safety, work, and disposable gloves.

APPLICATIONS:

General Industrial Work, Precision Handling, Cold Weather Glove Layering, Extended Glove Use in Warehousing, Maintenance & Assembly Tasks
