

#### AVAILABLE SIZES

## Abrasive Sand Blasting Gloves - Goatskin Palm, Kevlar® Stitching, Extended Cuff & Reinforced Protection

### FEATURES:

- **Premium Grain Goatskin Palm** – Offers excellent abrasion resistance and tactile control.
- **Cowhide Split Leather Reinforcements** – Strengthens palm, thumb, and index finger for high-impact durability.
- **Multi-Layer Knuckle Protection** – Shields the back of the hand from abrasive media and surface impact.
- **Extended Cowhide Split Leather Cuff** – Provides enhanced forearm protection during blasting and grinding.
- **Kevlar® Thread Stitching** – Reinforces seams for heat resistance and long-term structural integrity.
- **Ergonomic Fit & Flexibility** – Supports natural hand movement for precision handling.
- **Heavy-Duty Industrial Build** – Engineered for prolonged use in high-risk abrasive environments.

### INDUSTRIES:

- **Shipbuilding & Marine Maintenance** – Trusted for hull cleaning, welding, and structural repair.
- **Construction & Demolition** – Built for debris removal and abrasive surface handling.
- **Automotive & Machinery** – Ideal for restoration, repair, and surface treatment.
- **Metal Fabrication & Foundries** – Supports safe handling in casting and finishing zones.
- **Industrial Maintenance & Repair** – Used by technicians for abrasive servicing and inspection.
- **Oil & Gas Sector** – Suitable for pipeline prep, rig maintenance, and surface blasting.

### APPLICATIONS:

- **Abrasive Blasting Operations** – Ideal for cabinet blasting, surface prep, and media blasting.
- **Welding & Grinding** – Protects hands from sparks, heat, and sharp edges.
- **Surface Preparation** – Shields against debris and abrasive contact during cleaning and coating prep.
- **Automotive Restoration** – Suitable for paint stripping, rust removal, and metal finishing.
- **Industrial Maintenance** – Reliable for equipment servicing and facility upkeep.
- **Metalworking & Fabrication** – Durable for handling castings, sheet metal, and abrasive components.
