

AVAILABLE SIZES

FLAM RESISTANT SCARF

DESCRIPTION:

65% Mod-Acrylic 35% Viscose (Customized Blend Available)
GSM: 180-250. Durability (as per requirement)
Structure: Interlock

FEATURES:

- **Mod-Acrylic/Viscose Blend (65/35)** – Provides inherent flame resistance with soft, breathable comfort.
- **Interlock Knit Structure** – Enhances stretch recovery, durability, and thermal insulation.
- **Customizable GSM Range (180–250)** – Adjustable weight for climate-specific protection and comfort.
- **Lightweight & Layer able Design** – Fits easily under helmets, hoods, or turnout gear.
- **Extended Wear Comfort** – Breathable fabric reduces moisture buildup during long shifts.
- **Customizable Durability Options** – Tailored to meet job-specific wear and tear requirements.
- **Multi-Hazard Protection** – Shields against flame, sparks, hot debris, and gear abrasion.

APPLICATIONS:

Oil & Gas field workers, Welding and Metalwork, Firefighters, Military Personnel, Rescue Operations
