SPARK PROOF SLIP RESISTANT FULL SOLE ICE CLEAT

DESCRIPTION:

Premium winter full sole grips for everyday use with 10 strategically placed Tungsten Carbide cleats provide unparalleled 360° ultimate traction on winter snow and ice. Hardened Tungsten Carbide spikes offer maximum durability and ice piercing capability. Ice cleats help you to walk, run and work more confidently in slippery winter conditions without worrying about slipping.

FEATURES:

- **Full-Sole Coverage Design** – Ensures balanced traction across heel, arch, and toe zones.
- **10 Tungsten Carbide Cleats** – Delivers aggressive grip and ice-piercing capability for ultimate stability.
- **Spark-Proof Construction** – Safe for use in flammable or explosive-prone environments.
- **Slip-Resistant Technology** – Reduces fall risk on icy, snowy, and slushy surfaces.
- **Durable Industrial Build** – Withstands repeated use in rugged outdoor conditions.
- **Flexible Fit for All Footwear Types** – Compatible with boots, work shoes, and insulated footwear.
- **Lightweight & Easy to Wear** – Designed for everyday use without compromising mobility.

APPLICATIONS:

Snow & Ice Walking, Winter Worksite Navigation, Driving in Icy Conditions, Emergency Response in Snow, Industrial Footwear Enhancement
