TIG WELDING GLOVES - FULL-GRAIN GOATSKIN WITH COW SPLIT LEATHER CUFF FOR PRECISION & PROTECTION

DESCRIPTION:

Welding glove made of full-grain goatskin unlined, finished with a long, stiff cuff made of cow split leather. Designed for TIGwelding works

FEATURES:

- **Full-Grain Goatskin Leather Palm** – Offers superior softness, tensile strength, and abrasion resistance.
- **Unlined Interior** – Maximizes fingertip sensitivity for precision TIG welding control.
- **Long, Stiff Cow Split Leather Cuff** – Provides extended protection for wrist and forearm against sparks and heat.
- **High-Dexterity Design** – Supports intricate welding movements without compromising safety.
- **Heat-Resistant Leather Build** – Shields hands from radiant and contact heat during welding.
- **Durable Stitching & Seam Integrity** – Reinforced for industrial-grade longevity.
- **Lightweight & Flexible Fit** – Reduces fatigue during prolonged welding sessions.

APPLICATIONS:

TIG Welding, Precision Metal Fabrication, Aerospace Welding, Automotive Assembly

Alif International
