XPRO RIJ LIZARD - ADVANCED IMPACT, CUT, AND GRIP PROTECTION FOR EXTREME WORK ENVIRONMENTS

DESCRIPTION:

The XPRO RIJ LIZARD is designed for reliable protection in tough work environments. A flexible impact protection system on the back of the hand delivers Level 2 impact resistance while maintaining comfort and dexterity. The palm features a high-performance cut-resistant inner layer providing A6 cut and Level 5 puncture protection, combined with a durable, abrasion-resistant outer grip for excellent control in wet or dry conditions. A secure elastic cuff ensures a snug, dependable fit for all-day use.

INDUSTRIES:

- Heavy-duty abrasion-resistant palm with reinforced stitching for reliable wet and dry grip
- Advanced cut- and puncture-resistant inner palm layer for high-level hand protection
- Sewn-on flexible impact guards on knuckles and fingers for back-of-hand impact defense
- Additional impact protection between the thumb and index finger for high-wear areas
- Reinforced index finger and thumb saddle for increased durability and longer service life
- Ergonomic, pre-curved design for high dexterity and a natural, comfortable fit
- High-visibility back-of-hand coloring to enhance workplace awareness
- Form-fitting construction made from durable, quality materials
- Elastic cuff with pull tab for secure fit and easy donning

APPLICATIONS:

- **Oil & Gas Rig Work**
- **Mining & Heavy Industry**
- **Maintenance & Plant Operations**
- **Material Handling**
- **Construction & Machinery Handling**
- **Utility & Field Service**
- **Any environment with high cut, puncture, and impact risk**

These gloves combine superior durability, impact resistance, and grip, making them essential for high-risk industries where maximum protection is non-negotiable.
