WELDING GLOVES WITH 3M C100 THINSULATE - PREMIUM SAFETY & COMFORT

DESCRIPTION:

Durable welding gloves with 3M C100 Thinsulate, offering superior heat protection, comfort, and industrial safety.

FEATURES:

- **Durable Leather Construction:** Provides rugged abrasion resistance and long-lasting performance.
- **3M™ C100 Thinsulate™ Insulation:** Ensures superior thermal protection while maintaining dexterity.
- **Heat-Resistant Design:** Shields hands from sparks, slag, and prolonged heat exposure.
- **Comfort-Focused Fit:** Soft lining enhances wearability during extended shifts.
- **Heavy-Duty Stitching:** Reinforced seams for durability under mechanical and thermal stress.
- **Extended Coverage:** Protects wrist and lower forearm against industrial hazards.
- **Multi-Hazard Protection:** Combines heat resistance, durability, and comfort for demanding environments.

APPLICATIONS:

Welding & Fabrication Work, Construction & Industrial Labor, Heavy Equipment Handling, Metalworking & Grinding, Utilities & Infrastructure Maintenance, Mining & Industrial Operations
