

ELECTRIC ARC PROTECTIVE GARMENT 12 CAL/CM2 (ONE PIECE / TWO PIECE)

PRODUCT OVERVIEW:

This Electric Arc Protective Garment is engineered to deliver optimal protection and comfort for workers exposed to arc flash hazards. Made from a premium blend of Aramid, Modacrylic, and Anti-static fibers, the garment offers a lightweight feel at 350 GSM while maintaining superior durability and flame resistance. Designed in Navy Blue, it combines safety, comfort, and style for high-risk work environments.

APPLICATIONS:

This garment is suitable for a wide range of industries and job roles where electric arc flash hazards are present. Typical applications include:

- ◆ Electrical Utility Operations
- ◆ Power Generation & Distribution
- ◆ Industrial Maintenance
- ◆ Energy Sector (Oil & Gas, Renewables)
- ◆ Electrical Engineering & Panel Building
- ◆ Railways & Infrastructure Projects
- ◆ Any work environments requiring certified arc flash protection of HRC 2

BENEFITS:

- ◆ Lightweight yet protective – ideal for warm environments
- ◆ Enhanced mobility and comfort for all-day wear
- ◆ Static dissipation for additional safety in explosive atmospheres
- ◆ Compliant with international arc flash safety standards
