HI-VIS ORANGE CLASS 2 FR SAFETY VEST - FLAME RESISTANT, ANSI COMPLIANT

DESCRIPTION:

This Hi-Vis Orange Class 2 FR Safety Vest is designed to keep workers visible, protected, and compliant on the job site. Made from flame-resistant materials, it provides reliable safety without compromising comfort or mobility. The vest meets ANSI Class 2 visibility standards and is built to withstand demanding work environments. Featuring a practical pocket design, durable construction, and a comfortable fit, it delivers the functionality, protection, and performance professionals need for everyday use in industrial, construction, utility, and roadside work applications.

FEATURES:

- Flame-resistant fabric for reliable protection
- ANSI Type R Class 2 compliant for visibility standards
- Hi-Vis orange color for maximum visibility
- Durable construction built for demanding environments
- Practical pocket design for essential storage
- Comfortable fit ensuring mobility and ease of wear
- Industrial-grade safety vest designed for compliance and performance

APPLICATIONS:

Industrial job sites, Construction crews, Utility workers, Roadside work teams, Heavy machinery operators, General maintenance & repair staff
