HI-VIS MESH SAFETY VEST - ANSI TYPE R CLASS 2, MOISTURE-WICKING FABRIC & FALL PROTECTION READY

DESCRIPTION:

XPRO® HV08-FLG ANSI Type R Class 2 High Visibility Mesh Safety Vest keeps you cooler and reduces odor with moisture-wicking, anti-microbial fabric and breathable mesh. It features 9 pockets with ID holder, quick size adjustment, and a pass-through slit for fall protection gear. Recommended for traffic under 50 mph or heavy machinery environments, it's also available in Class 2 Breakaway CSA options with five tearaway points. Offered in yellow and orange, these vests can be customized with your company logo.

FEATURES:

- Moisture-wicking, anti-microbial fabric keeps you cooler & reduces odor
- Lightweight breathable mesh for comfort in hot conditions
- 9 pockets with clear ID holder & internal storage
- Quick internal size adjustment for secure fit
- Durable pass-through slit for fall protection gear
- Class 2 Breakaway CSA option with five tearaway points
- Available in high-visibility yellow & orange, customizable with company logo

APPLICATIONS:

Construction crews, Roadwork teams, Traffic direction staff, Utility workers, Survey crews, Heavy machinery operators
