AVAILABLE SIZES

GOAT GRAIN PALM, KEVLAR LINING & HEAT-RESISTANT COWHIDE CUFF

DESCRIPTION:

TIG/MIG Aluminized Welding Gloves with Goatskin Grain Palm, Index Finger, Straight Thumb, Aluminized Back, Kevlar® Lining for Heat and Cut Resistance, Cowhide Cuff, and Kevlar® -Sewn Seams.

APPLICATIONS:

Goat Grain Palm & Index Finger – Durable, supple leather for enhanced dexterity and grip.

Straight Thumb Design – Ergonomic comfort that reduces hand fatigue during extended welding tasks.

Aluminized Back Protection – Reflects radiant heat, providing superior thermal resistance in high-temperature environments.

Kevlar® Lining – ANSI-rated cut and heat resistance for maximum safety.

Cowhide Cuff – Strong extended cuff for added wrist and forearm protection.

Kevlar® Sewn Seams – Reinforced stitching ensures durability against sparks, abrasion, and wear.

Industrial-Grade Construction – Built for heavy-duty TIG/MIG welding and metal handling applications.

APPLICATIONS:

TIG Welding, MIG Welding, Metal Fabrication, Welding Repairs, Steel Manufacturing, Industrial Metalworking
