PREMIUM COWHIDE SPLIT LEATHER WELDING GLOVES WITH KEVLAR® STITCHING & REINFORCED PALM

DESCRIPTION:

Cowhide split leather provides outstanding abrasion resistance, heat and flame resistance. Strength Kevlar®/Aramid threads stitching with welted seams for added durability. Fully fleece and Foam lined for Added Heat Protection. Reinforced Palm, Cuff & Thumb for stronger and better durability. Gauntlet cuff for added Extended Heat-Resistant protection.

FEATURES:

Premium cowhide split leather provides outstanding abrasion resistance and durability.
Heat- and flame-resistant construction for dependable welding protection.
Kevlar®/Aramid stitched seams enhance strength and long-lasting performance.
Welted seam design improves durability in high-wear areas.
Fully fleece and foam lined for superior heat insulation and comfort.
Reinforced palm, thumb, and cuff increase wear resistance and glove lifespan.
Extended gauntlet cuff offers extra wrist and forearm protection from sparks and heat.

APPLICATIONS:

MIG Welding, Stick Welding, Metal Fabrication, Foundry Work, Steel Handling, Maintenance Welding

Alif International
Plot No. 417, Sector 7/A, K.I.A., Karachi, Pakistan
