COWHIDE SPLIT LEATHER WELDING GLOVES WITH KEVLAR® STITCHING & HEAT PROTECTION

DESCRIPTION:

Cowhide split leather welding gloves with Kevlar® stitching, fleece lining, reinforced palm, and gauntlet cuff for heat protection.

FEATURES:

Premium cowhide split leather construction for superior durability and abrasion resistance.
Heat- and flame-resistant design for reliable welding and hot-work protection.
Kevlar® stitched seams provide exceptional strength and long-lasting performance.
Soft fleece lining enhances comfort and thermal insulation during extended use.
Reinforced palm improves wear resistance and extends glove service life.
Extended gauntlet cuff offers additional wrist and forearm protection.
Heavy-duty welding glove engineered for demanding industrial applications.

APPLICATIONS:

MIG Welding, Arc Welding, Metal Fabrication, Steel Handling, Foundry Work, Maintenance Welding

Alif International
Plot No. 417, Sector 7/A, K.I.A., Karachi, Pakistan
