HEAT AND FLAME RESISTANT WELDING GLOVES

DESCRIPTION:

Cowhide split leather provides outstanding abrasion resistance, heat and flame resistance. Strength Kevlar®/Aramid threads stitching with welted seams for added durability. Fully foam fleece and Foam lined for Added Heat Protection. Golden reinforced Palm, knuckle & Thumb for stronger and better durability. Gauntlet cuff for added Extended Heat Resistant protection.

FEATURES:

- Premium Split Cowhide Leather for durability and abrasion resistance.
- Heat & Flame Resistant protection for welding applications.
- Strong Kevlar®/Aramid Stitching for extended glove life.
- Durable Welted Seams enhance strength at stress points.
- Foam Fleece Lining provides added heat insulation.
- Reinforced Palm, Thumb & Knuckle for extra wear protection.
- Extended Gauntlet Cuff protects wrist and forearm from sparks.

APPLICATIONS:

MIG Welding, Metal Fabrication, Foundry & Steel Work, Construction Industry, Grinding & Material Handling Tasks

Alif International
Plot No. 417, Sector 7/A, K.I.A., Karachi, Pakistan
