COWHIDE SPLIT LEATHER MIG WELDING GLOVES WITH KEVLAR® STITCHING & HEAT PROTECTION

DESCRIPTION:

Cowhide split leather provides outstanding abrasion resistance, heat and flame resistance. Strength Kevlar®/Aramid threads stitching with welted seams for added durability. Fully fleece and Foam lined for Added Heat Protection. Gauntlet cuff for added Extended Heat-Resistant protection.

FEATURES:

Premium cowhide split leather offers excellent abrasion resistance and durability.
Heat- and flame-resistant leather construction for welding and hot work environments.
Kevlar®/Aramid thread stitching enhances seam strength and longevity.
Welted seam design provides added durability in high-stress areas.
Full fleece and foam lining delivers superior heat insulation and comfort.
Extended gauntlet cuff offers additional forearm and wrist protection.
Heavy-duty welding glove design ensures reliable performance in demanding applications.

APPLICATIONS:

MIG Welding, Arc Welding, Metal Fabrication, Foundry Work, Steel Handling, Maintenance Welding

Alif International
Plot No. 417, Sector 7/A, K.I.A., Karachi, Pakistan
